EXECUTIVE SUMMARY

An accelerated Informatics engineering graduate from Telkom University, with 6 months of internship experience in the IT & Digitization unit. Proven expertise in full-stack web development (Laravel), API integration, and database management. Strong interest in data analysis and cybersecurity, with a proven ability to bridge technical system requirements with user-centric functionality. Currently seeking career opportunities to contribute to digital transformation and professional system infrastructure management.

EDUCATION

- Bachelor of Informatics, Telkom University Bandung** 2021 – 2025
- GPA: 3.56 / 4.00
 - Relevant Coursework: Information Security, Full-Stack Web Development, Data Analyst, Database Administration
 - Final Assignment: Implementation of the Web-Based KAMI Index (ISO 27001) for Evaluating the Information Security Management System at the Directorate of Customs and Excise Information.

WORKING EXPERIENCES

- Internship, IT & Digitization Support at Telkom Property** Nov 2025 – May 2026
- Implemented full-stack development solutions, refined complex database logic, and engineered seamless API integrations to deliver accurate, real-time data streaming.
 - Utilized and customized Odoo ERP modules to automate business workflows, manage enterprise database requirements, and support core institutional digitization initiatives.
 - Balanced high-velocity routine system maintenance with active technical exploration, fostering a highly adaptive and agile problem-solving mindset within a corporate IT landscape.
- Internship, Information Technology Security Analyst at DJBC** Jul 2024 – Aug 2024
- Information Security Management & Maintenance – Ensured data integrity, confidentiality, and availability within the organization.
 - Network Configuration & Management – Set up and maintained internal networks, including MikroTik router configuration, IP address management, firewall settings, and network segmentation.

ORGANIZATIONAL EXPERIENCES

- Google Developer Student Club (GDSC) - Telkom University Bandung** Nov 2023 - Nov 2024
- Focused on Mobile Application Development: gaining hands-on experience in building mobile applications and collaborating with developers.
- External Division, Federation of Informatics Athlete, Telkom University** Mar 2024 - Mar 2025
- Responsible for external relationships and partnerships, including coordination with other organizations and third parties.
