

REZA MU'AMMAR WIDYANTO

Software Engineer | Full-Stack Developer

Jakarta, Indonesia | 25mmrz@gmail.com | +62 851-5605-0344 | [linkedin.com/in/rezamuammar](https://www.linkedin.com/in/rezamuammar) | muammarrz.github.io/portfolio

PROFESSIONAL SUMMARY

Informatics Engineering graduate with hands-on internship experience across full-stack web development, IT infrastructure, and information security. Built enterprise web applications using Laravel, React, TypeScript, REST APIs, and SQL databases, and applied ISO 27001-based information security practices. Known for turning manual, time-consuming processes into automated, data-driven systems that save time and support faster decision-making.

CORE SKILLS

Languages & Frameworks: JavaScript, TypeScript, PHP, Java, Python, HTML, CSS, Go, Laravel, React, Filament PHP, Next.js, NestJS

Infrastructure & Security: Docker, MikroTik Router Configuration, Network Segmentation, Firewall Management, ISO 27001, Digital Forensics (FTK Imager, Wireshark)

Data & Dev Tools: MySQL, PostgreSQL, Apache Superset, REST API, Git/GitHub, Google Colab, Odoo, Jira

Languages: Bahasa Indonesia (Native), English (EPT Score: 523)

PROFESSIONAL EXPERIENCE

MIS (Management Information System) Staff | PT. Senjaya Eco Kasei

Jul 2026 – Present

- Took over ongoing Odoo system development through a structured handover from the previous developer, including learning the company's core business flows across Manufacturing, Purchasing, Sales, and Receiving Procedures on an on-premise server environment.
- Designed and developed a custom Odoo module to automate product lot number generation in compliance with internal company SOPs, incorporating logic for year, month, production date, machine, and shift codes.

IT & Digitization Support Intern | Telkom Property

Nov 2025 – May 2026

- Designed and developed an Internal Operations Portal (Laravel, React, REST API) that automates data synchronization across employee attendance, facility maintenance, and security patrol systems, and generates official berita acara (handover minutes) with a built-in digital approval workflow, eliminating manual typing errors and **saving an estimated 10–15 hours of administrative work per week**.
- Engineered a centralized Operational Performance Dashboard (Laravel + Filament PHP) with real-time checklist sync and automated weighted-KPI calculations, directly **bridging Telkom Property and Telkom Infrastructure** to streamline coordination on building provision and leasing.
- Built SQL datasets and Apache Superset dashboards adopted **company-wide** at Telkom Property to monitor operational performance and support data-driven decision-making.

IT Security Analyst Intern | DJBC (Directorate General of Customs and Excise)

Jul 2024 – Aug 2024

- Maintained information security across organizational systems by enforcing data integrity, confidentiality, and availability controls, contributing to **zero security incidents** during the internship period.
- Configured and managed internal network infrastructure, including MikroTik router setup, IP addressing, firewall rules, and network segmentation, to strengthen network reliability and security.

EDUCATION

Bachelor of Informatics — Telkom University, Bandung

2021 – 2025

- GPA: 3.56 / 4.00
- Final Project: Implemented a web-based KAMI Index (ISO 27001) tool to assess the Information Security Management System at the Directorate General of Customs and Excise, enabling standardized, measurable security-maturity scoring.

ORGANIZATIONAL EXPERIENCE

- Mobile Development Member | Google Developer Student Club (GDSC), Telkom University

Nov 2023 – Nov 2024

 - Collaborated with a cross-functional team of developers to design and build mobile applications, covering the full development lifecycle from planning to deployment.
- External Relations Staff | Federation of Informatics Athlete, Telkom University

Mar 2024 – Mar 2025

 - Built and maintained partnerships with external organizations, coordinating joint initiatives and events on behalf of the division.
- Community Service Leader | Informatics for Community, Telkom University

Jun 2024

 - Led a foundational Python programming initiative for **30+ high school students** (SMAN 1 Dayeuhkolot Bandung), designing structured learning modules covering syntax, variables, loops, and problem-solving to introduce core computer science concepts.

CERTIFICATIONS

- Google IT Support Professional Certificate — Coursera, 2023
- Cybersecurity Fundamentals — Fortinet, 2025
- Program Pemagangan Lulusan Perguruan Tinggi — Kemnaker, 2026
- Front-End Development — freeCodeCamp, 2026
- JavaScript — freeCodeCamp, 2026
